### **SCIENCE AND HEALTH WITH KEY TO THE SCRIPTURES** By Mary Baker Eddy

*Science and Health* 595:17-21

**TIME.** Mortal measurements; limits, in which are summed up all human acts, thoughts, beliefs, opinions, knowledge; matter; error; that which begins before, and continues after, what is termed death, until the mortal disappears and spiritual perfection appears.

*Science and Health* 39:18-22

"Now," cried the apostle, "is the accepted time; behold, *now* is the day of salvation," — meaning, not that now men must prepare for a future-world salvation, or safety, but that now is the time in which to experience that salvation in spirit and in life.

*Science and Health* 246:11-13

The radiant sun of virtue and truth coexists with being. Manhood is its eternal noon, undimmed by a declining sun.

*Science and Health* 468:28-469:1

Eternity, not time, expresses the thought of Life, and time is no part of eternity. One ceases in proportion as the other is recognized. Time is finite; eternity is forever infinite.

*Science and Health 44:5-10*

The lonely precincts of the tomb gave Jesus a refuge from his foes, a place in which to solve the great problem of being. His three days' work in the sepulchre set the seal of eternity on time. He proved Life to be deathless and Love to be the master of hate.

*Science and Health 598:19-599:2*

YEAR. A solar measurement of time; mortality; space for repentance.

"One day is with the Lord as a thousand years." (II Peter iii. 8.) One moment of divine consciousness, or the spiritual understanding of Life and Love, is a foretaste of eternity. This exalted view, obtained and retained when the Science of being is understood, would bridge over with life discerned spiritually the interval of death, and man would be in the full consciousness of his immortality and eternal harmony, where sin, sickness, and death are unknown. Time is a mortal thought, the divisor of which is the solar year. Eternity is God's measurement of Soul-filled years.

*Science and Health 55:22-26*

The time for the reappearing of the divine healing is throughout all time; and whosoever layeth his earthly all on the altar of divine Science, drinketh of Christ's cup now, and is endued with the spirit and power of Christian healing.

*Science and Health 92:32-93:9*

Do you say the time has not yet come in which to recognize Soul as substantial and able to control the body? Remember Jesus, who nearly nineteen centuries ago demonstrated the power of Spirit and said, "He that believeth on me, the works that I do shall he do also," and who also said, "But the hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth." "Behold, now is the accepted time; behold, now is the day of salvation," said Paul.

*Science and Health 125:21-30*

The seasons will come and go with changes of time and tide, cold and heat, latitude and longitude. The agriculturist will find that these changes cannot affect his crops. "As a vesture shalt Thou change them and they shall be changed." The mariner will have dominion over the atmosphere and the great deep, over the fish of the sea and the fowls of the air. The astronomer will no longer look up to the stars, — he will look out from them upon the universe; and the florist will find his flower before its seed.

*Science and Health 245:5-12*

Disappointed in love in her early years, she became insane and lost all account of time. Believing that she was still living in the same hour which parted her from her lover, taking no note of years, she stood daily before the window watching for her lover's coming. In this mental state she remained young. Having no consciousness of time, she literally grew no older.

*Science and Health 245:27-31*

Impossibilities never occur. One instance like the foregoing proves it possible to be young at seventy-four; and the primary of that illustration makes it plain that decrepitude is not according to law, nor is it a necessity of nature, but an illusion.

*Science and Health 249:18-20 (to 1st .)*

Life is, like Christ, "the same yesterday, and to-day, and forever." Organization and time have nothing to do with Life.

*Science and Health 246:17-31*

Never record ages. Chronological data are no part of the vast forever. Time-tables of birth and death are so many conspiracies against manhood and womanhood. Except for the error of measuring and limiting all that is good and beautiful, man would enjoy more than threescore years and ten and still maintain his vigor, freshness, and promise. Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness.

Life is eternal. We should find this out, and begin the demonstration thereof. Life and goodness are immortal. Let us then shape our views of existence into loveliness, freshness, and continuity, rather than into age and blight.

*Science and Health 509:20-28*

So-called mineral, vegetable, and animal substances are no more contingent now on time or material structure than they were when "the morning stars sang together." Mind made the "plant of the field before it was in the earth." The periods of spiritual ascension are the days and seasons of Mind's creation, in which beauty, sublimity, purity, and holiness — yea, the divine nature — appear in man and the universe never to disappear.

*Science and Health 261:24-30*

Breaking away from the mutations of time and sense, you will neither lose the solid objects and ends of life nor your own identity. Fixing your gaze on the realities supernal, you will rise to the spiritual consciousness of being, even as the bird which has burst from the egg and preens its wings for a skyward flight.

*Science and Health 266:29-32*

Man is deathless, spiritual. He is above sin or frailty. He does not cross the barriers of time into the vast forever of Life, but he coexists with God and the universe.

*Science and Health 504:16-20*

The successive appearing of God's ideas is represented as taking place on so many evenings and mornings, — words which indicate, in the absence of solar time, spiritually clearer views of Him, views which are not implied by material darkness and dawn.

*Science and Health 487:27*

The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality.

*Science and Health 520:10-15*

The numerals of infinity, called seven days, can never be reckoned according to the calendar of time. These days will appear as mortality disappears, and they will reveal eternity, newness of Life, in which all sense of error forever disappears and thought accepts the divine infinite calculus.

*Science and Health 584:3-8*

"And the evening and the morning were the first day." (Genesis i. 5.) The objects of time and sense disappear in the illumination of spiritual understanding, and Mind measures time according to the good that is unfolded. This unfolding is God's day, and "there shall be no night there."

*Science and Health 332:9-15*

IX. Jesus was born of Mary. Christ is the true idea voicing good, the divine message from God to men speaking to the human consciousness. The Christ is incorporeal, spiritual, — yea, the divine image and likeness, dispelling the illusions of the senses; the Way, the Truth, and the Life, healing the sick and casting out evils, destroying sin, disease, and death.

*Science and Health 263:28-31*

A sensual thought, like an atom of dust thrown into the face of spiritual immensity, is dense blindness instead of a scientific eternal consciousness of creation.

*Science and Health 247:28-30*

The embellishments of the person are poor substitutes for the charms of being, shining resplendent and eternal over age and decay.

*Science and Health 129:22-24*

We must look deep into realism instead of accepting only the outward sense of things.

*Science and Health 247:13*

"Immortality, exempt from age or decay, has a glory of its own,—the radiance of Soul."

*Science and Health 504:23-26*

The rays of infinite Truth, when gathered into the focus of ideas, bring light instantaneously, whereas a thousand years of human doctrines, hypotheses, and vague conjectures emit no such effulgence.

*Science and Health 426:8*

When the destination is desirable, expectation speeds our progress.

**MISCELLANEOUS WRITINGS** By Mary Baker Eddy

*Miscellaneous Writings 15:13-20*

The new birth is not the work of a moment. It begins with moments, and goes on with years; moments of surrender to God, of childlike trust and joyful adoption of good; moments of self-abnegation, self-consecration, heaven-born hope, and spiritual love. Time may commence, but it cannot complete, the new birth: eternity does this; for progress is the law of infinity.

*Miscellaneous Writings 230:1-25*

Improve Your Time

Success in life depends upon persistent effort, upon the improvement of moments more than upon any other one thing. A great amount of time is consumed in talking nothing, doing nothing,

and indecision as to what one should do. If one would be successful in the future, let him make the most of the present.

Three ways of wasting time, one of which is contemptible, are gossiping mischief, making lingering calls, and mere motion when at work, thinking of nothing or planning for some amusement, — travel of limb more than mind. Rushing around smartly is no proof of accomplishing much.

All successful individuals have become such by hard work; by improving moments before they pass into hours, and hours that other people may occupy in the pursuit of pleasure. They spend no time in sheer idleness, in talking when they have nothing to say, in building aircastles or floating off on the wings of sense: all of which drop human life into the ditch of nonsense, and worse than waste its years.

"Let us, then, be up and doing, With a heart for any fate; Still achieving, still pursuing, Learn to labor and to wait."

*Miscellaneous Writings ix:15-18*

To preserve a long course of years still and uniform, amid the uniform darkness of storm and cloud and tempest, requires strength from above, — deep draughts from the fount of divine Love.

*Miscellaneous Writings 307:1-5*

God gives you His spiritual ideas, and in turn, they give you daily supplies. Never ask for tomorrow: it is enough that divine Love is an ever-present help; and if you wait, never doubting, you will have all you need every moment.

*Miscellaneous Writings 117:29*

The disobedient make their moves before God makes His, or make them too late to follow Him. Be sure that God *directs* your way; then, hasten to follow under every circumstance.

*Miscellaneous Writings 110:15*

*My Beloved Students:*—Weeks have passed into months, and months into years, since last we met; but time and space, when encompassed by divine presence, do not separate us. Our hearts have kept time together, and our hands have wrought steadfastly at the same object-lesson, while leagues have lain between us.

**UNITY OF GOOD** By Mary Baker Eddy

*Unity of Good 11:24-27*

"Jesus required neither cycles of time nor thought in order to mature fitness for perfection and its possibilities. He said that the kingdom of heaven is here, and is included in Mind;"

We own no past, no future, we possess only now. If the reliable now is carelessly lost in speaking or in acting, it comes not back again. Whatever needs to be done which cannot be done now, God prepares the way for doing; while that which can be done now, but is not, increases our indebtedness to God. Faith in divine Love supplies the ever-present help and now, and gives the power to "act in the living present."

“It's so liberating not to be a slave to the limitations of time. When I take with me an increasingly spiritualized concept of time through my world, it then becomes my servant, not my master.”

**Walt Whitman**

“There will never be any more perfection than there is now.”

**Wikipedia**

Ancient Greeks two words for time:

Chronos — chronological or sequential time; quantitative and measured.

Kairos — an interval free of time in which everything happens; qualitative, permanent. “The appointed time in the purpose of God.”

**William Shakespeare**

"Time travels in divers paces with divers persons."

“Yet do thy worst, old Time; despite they wrong, my love shall in my verse ever live young.”

“Better three hours too soon than a minute too late.”
